

# pico neo3 pro

The 6th device from Pico and the 3rd device to implement 6 DoF tracking, the Neo 3 Pro is the optimal combination of price and performance. All the features you need to get to work without added subscriptions or complicated commercial conditions. The scalable choice for all types of enterprise VR deployments.

QUALCOMM XR2 PROCESSOR

OPTICAL CONTROLLERS

4 CAMERA TRACKING SYSTEM

MULTI-ROOM GUARDIAN

TOBII EYE TRACKING\*

Deploy your PC content using wireless or high performance wired streaming (Nvidia Direct Mode via DisplayPort). Or develop native applications using Pico SDK (Unreal, UnityXR, and OpenXR game engines compatible).

Neo 3 Pro is made entirely of sanitizable materials for maximum hygiene. The rigid strap, rear high-capacity battery, and tightening system facilitate a counterbalance for long term comfort.
